

**EU/UK Annual CD Meeting
University of Warwick
8 December 2011**

- 11:00 **Welcome and Update on CD Developments: Bonnie Wallace (Birkbeck)**
- 11:20 **Plenary Lecture: Louise Serpell (Sussex): "Combining biophysical methods to understand self-assembling proteins"**
- 12:00 **Plenary Lecture: Chris Van der Walle (Strathclyde): "Enzyme catalysed formation of glass spicules"**
- 12:40 **Lunch and Posters**
- 1:40 ***The Next Generation:***
- Aimee Boyle (Bristol): "Biophysical analysis of self-assembling peptidic nanostructures"**
- Matt Hicks (Birmingham): "Spectroscopic methods using polarized light for medical diagnostics"**
- Bibek Gooptu (Cambridge) *pending***
- Dan Klose (Queen Mary) "DichroMatch, a new Tool for Analysing and Comparing CD spectra"**
- to be announced**
- 3:30 **Tea and Posters**
- 4:00 **Jochen Burck (KIT)/Robert Janes (Queen Mary): "CD12@ANKA"**
- 4:20 **Lee Whitmore (Birkbeck): DichroWeb and PCDDB Users Forum**
- 4:50 **Poster Prizes Awarded**
